REVIEW OF THE IRON TRADE. Week Has Been Notable for

Heavy Buying in West. Cleveland, O., Aug. 13.-The Iron Trade Review this week says: Heavy buying of pig iron in the West has established that market on a much firmer basis, and the lead of the big malleable and implement interests in covering requirements for the re-mainder of the year will be followed by buying on the part of smaller interests. Chicago reports sales of about 156,000 tons of iron in the last ten eading harvester interests have purchased close on to 50,000 tons of foundry fron, Northern fur-naces securing over 15,000 tons at \$17, while more than 20,000 tons was placed with nonassociation Southern furnaces on the basis of \$12, Birmingham. Numerous other parchases of both malleage and foundry in lots ranging from 3,000 to 500 these and foundry in lots ranging from 3,000 to 500 tons were made. This neary buying of Southern foundry it in Las practically established the market on a 12 basis.

The buying of iron in the Pittsburg district has also been much heavier than for some time, the sale of the week aggregating 15,000 tons at prices somewhat lower than had been prevaiting. Sales of 4,000 tons of lorge lave seen made at 50. Pittsburg, and one lot of 5,000 tons of Virginia basic for delivery the remander of the year was placed at \$18,25, netting the furnace only \$14.20. The United States Steel Corporation has deferred the buying of Bessemer for the fourth quarter, no quotations on iron for this delivery having been received by the Pig Iron Committee, whether the corporation's requirements from the valley fugnaces will be as heavy during the last quarter as during similar preceding periods this year is doubtful, as one stack in Clarion, in some stack in Clarion, in a state of the stat southern furnaces on the basis of \$12, Birming-

Ladies' Corset Coat (Perforated for Short Jacket). No. 9046—Women who are blessed with beautiful forms have accepted the now corset coat with much favor and many slender women have had their tailors "build" their coats in such a manner that they look almost as well on them as if they were really stout.

There is something decidedly smart about these corset coats, with their long lines and graceful curves. When the weather is cool they may be seen in covert, cheviot, broadcloth or very mannish checks and stripes. Frequently the straps are of self fabric, but a novel effect may be obtained by strapping them with narrow braid, making the "corset" idea more pronounced.

Summer sults are made with walking skirts of many gores and coats to match. They are of linen, heavy cotton cheviot, madras, or any of the new mercerized wash fabrics, and finished in strictly tailer style. The garments are cool, comfortable and ver; smart.

The illustrated is developed in white silk voille, unlined, making a cool and most appropriate garment for warm weather wear. It is simply adjusted with shoulder and under-arm seams.

Two tucks on each side of an inverted bown part way. In front there are three tucks that are stitched almost to the hem, the fullness from the tucks increasing the width at the lower edge.

The coat file well on the shoulders and hangs loosely in box effect. Deep tucks in the sleeve are very wide at the bottom, where fullness is arranged on lace cuffs. If a

IN KENTUCKY FEUD CASE. It Is Predicted That a Mistrial Will Be the Result at Cynthians.

JURY IS DELIBERATING

White trial to-day Judge Fryer, Commonwealth's attorney, made the closing argu-ment. Judge Fryer said to the jurors that if they turned these men loose they might as well go home and let anarchy and assarsination reign. He concluded his speech with the charge

that in Breathitt County the County Judge and Sheriff were protecting criminals. Judge Osborn then directed Sheriff Leach to show the jury to the jury-room. Every precaution has been taken to prevent any tampering with the jury. This afternoon, after four hours' deliberation, the jurors, when called into court by Judge Osborn, reported that they had not yet reached a ver-
